

V10 SWIVEL SELF-LOCKING HOOK WITH BEARING SERIES

When it comes to complex work environments or precise applications, a Swivel Self-Locking Hook With Bearing is the ideal choice. The bearing allows the hook to rotate freely underneath the load. The swivel eye allows the load be turned or flipped without unhooking, so you can be sure it ends up exactly where and how you need it. You'll find you have even more security and control over the lift with the self-locking latch - a unique safety feature that allows the load to be unhooked manually whenever it needs to be released. This Italian made self-locking hook has really proven itself to be a recognized quality product. It meets or exceeds OSHA, Government, NACM, and ASTM specs and comes in a blue powder coat finish.

FEATURES

- Grade 100
- Comes with bearing
- Premium fine grain alloy steel
- Made in Italy
- Quenched and tempered before proof testing
- Blue powder coat finish
- Meets or exceeds OSHA, Government, NACM, and ASTM specs
- Swivel eye attachment for turning and flipping the load without any unhooking
