

G70 BINDER CHAIN ASSEMBLY - IMPORT (NACM)

The Grade 70 Import Binder Chain Assembly is used for securing load for heavy haul and trucking applications. It has a NACM spec long link chain has a longer pitch link for less weight per assembly. Yellow zinc finished and equipped with high quality forged hooks - this binder chain assembly is your best choice. Pitch is the inside length measurement of a link. NOT for overhead lifting.

G70 BINDER CHAIN ASSEMBLY - IMPORT (NACM)
