

# 316 STAINLESS STEEL ROUND RINGS

---

This corrosion resistant 316 Stainless Steel round ring is suitable for marine, overhead lifting, and industrial rigging. With the addition of molybdenum, the 316 Stainless Steel has greater corrosion resistance, improved resistance to pitting from chloride ion solutions, and an increased strength at elevated temperatures. It is welded, electropolished, and proof tested. Made in the USA, this round ring is a quality product, certified to OSHA and ASME standards.

# 316 STAINLESS STEEL ROUND RINGS

---

## GRADE

- 316

## FINISH

- Electropolished

## STANDARDS

- Certified to OSHA and ASME standards

## ATTACHMENT

- Ring

## ORIGIN

- Made in USA

## LINK TYPE

- Round Ring

## APPLICATION

- Custom Lifting

## MATERIAL

- Stainless Steel
